To Whom It May Concern:

Please note that the Collision Repair and Refinishing Diploma program is delivered in a format different than the standard academic schedule. The program runs for two full years, therefore courses beginning in the Fall semester each year continue through the Winter semester full time without the Winter terms appearing on the official transcript. In the event that the program starts in the Winter semester, courses will start in January and continue full time through the summer into September each year, without the Summer or Fall semester appearing on the official transcript.

Thank you,
