Chair's Approval:

Student teams will conduct an applied project with a service organization of your choice and perform a services design review to include a written report which shall contain the following components:

- 1. Services Design Audit Report
  - Using secondary research, identify the consumer experience and measure the consumer gap.
  - Identify the four service provider gaps contributing to the consumer gap.
  - Conduct a causal analysis of the service provider gaps.
  - Develop recommendations to improve the overall services design.
- 2. Services Design Audit Presentation

The Services Design Review will be assessed on a team basis and then individual marks are awarded based on professor approved peer evaluations.

Each team will create a new service concept with a written report to address one or more of the recommendations contained in your team's Services Design Audit including the following components:

- 1. New Service Idea Generation and Selection.
- 2. Service Prototype Design.
- 3. Service Quality and IMCS.
- 4. Presentation of New Service Concept.

The New Service Concept Project will be assessed on a team basis and then individual marks are awarded based on professor approved peer evaluations.
